**State of Florida  
Department of Highway Safety and Motor Vehicles  
Bureau of Mobile Homes and Recreational Vehicle Construction**

## **MOBILE HOME SETUP, REPAIRS AND/OR ADDITIONS**

All mobile/manufactured homes must be constructed in accordance with regulations of the U.S. Department of Housing and Urban Development (HUD) which are entitled the [Manufactured Housing Construction and Safety Standards](#). These regulations were amended in 1994 to better ensure that mobile/manufactured homes can withstand strong winds. In addition, all mobile/manufactured homes must be installed in accordance with [Rule Chapter 15C-1](#) and 15C-2, Florida Administrative Code (F.A.C.), which are among the most stringent mobile/manufactured home installation standards in the United States. Investigations of damage to mobile homes from the 2004 and 2005 hurricanes found that no homes built subsequent to the new HUD construction regulations sustained any significant damage and all homes installed in accordance with Rule 15C-1 and 15C-2, F.A.C. tended to also fair well. To ensure the safety of mobile/manufactured homes, there are also restrictions on where such homes may be set-up. No mobile/manufactured home can be set-up in Florida unless it was built in accordance with the standards that apply to the [wind zone](#) classification applicable to the county where it is to be set-up.

The construction codes are not the same as the Florida Building Codes and when a mobile home is repaired it must be put back in the same condition as when it was manufactured. Only the mobile home manufacturer or a Florida certified mobile home dealers, including some mobile home installers, are legally authorized to make any repairs. This is authorized in Sections 320.71 through 320.865, Florida Statutes; and the rules issued by the Bureau in Chapters 15C-1 and 15C-2, Florida Administrative Code.

Individuals and dealers who install mobile/manufactured homes must be [licensed as installers](#) by the Bureau of Mobile Home and Recreational Vehicle Construction. Installers are required to take a pre-license course and pass a license examination. They also must have a \$5,000 surety bond and \$100,000 of liability insurance before they can be licensed. Installer licenses must be renewed annually.

Section 320.8249, Florida Statutes and Rule Chapter [15C-2, F.A.C.](#), require that only licensed mobile/manufactured home installers may set-up a mobile/manufactured home in Florida. No Owner/Builder is permitted to set-up a mobile/manufactured home in Florida.

**The phone number for the Bureau in Tallahassee is 850.413.7600**
