The owner, by filing this application, agrees to comply with the decision(s) regarding this application and conform to all conditions of approval. The signature(s) below affirm that all information contained within this application is correct to the best of the owner's knowledge and belief. The owner understands that splitting property may increase taxes by affecting existing capped values and if, at a future date, I choose to reverse the split, the capped value will not be restored to its former level. Furthermore, if the property is encumbered by a mortgage, it is the owner's responsibility to seek prior approval of the mortgagee to the split. Filing an application does not guarantee approval, and denial or withdrawal of an application does not result in remittance of the application fee.

DISTRICT STANDARDS AND COMMON TERMS

Hendry County’s Planning and Zoning Department handles Lot Splits applications with the assistance of the Property Appraiser’s Office and the Public Works Department. Each department reviews for something different. Please use the contact information below to direct questions to the appropriate reviewing entity.

COMMON TERMS

Platted Lot: A lot depicted on a subdivision plat, duly recorded pursuant to statute in the recorder’s office. A recorded lot may or may not coincide with the minimum lot requirements of the zoning district. Normally, a platted lot is described in specific lot numbers in the legal description of a property instead of descriptions of the size and location of a property based on the geographical coordinates.

Structure: Anything constructed or erected, the use of which requires permanent location on the ground or attached to something having a permanent location on the ground including but not limited to fences, signs, sheds, or similar uses. For the purposes of a Lot Split, infrastructure like septic systems and water wells will count as structures.

Easement: A right to use another person’s real property for certain limited purposes.

Access: Driveway or easement that connects to a right-of-way or easement providing a means to gain entry into a property.

Right-of-way: Road or other way open for use by the public or specified parties.

Developed: Structures or infrastructure exists on the property.

Undeveloped: Land without structures or infrastructure.

Setbacks: The required distance between every structure and the lot lines of the property on which it is located.

Zoning District: The division of a land by legislative regulations into areas, or zones, which specify allowable uses for real property and size restrictions for buildings within these areas. Also, a program that implements policies of the general plan.

APPLICATION PROCEDURES

Portions of the submittal requirements may be waived at the Pre-Application Meeting with Planning and Public Works. **Staff highly recommends submitting all of the application requirements with a Table of Contents outlining all of the included exhibits with corresponding tabbed dividers.** All printed documents should be submitted on double-sided pages. Graphs and/or maps should be one-sided.

The application process consists of two general phases: completeness and sufficiency.

The first phase is the completeness review which requires one digital application package. This review only checks that all of the required materials were included in the application package. If the application includes all of the requirements, a completeness letter will be issued to the applicant or agent and the application will move to its second phase.

This is the phase where formal comments will be issued to the applicant to create an application package that meets all of the code requirements. Because Lot Split applications DO NOT go to public hearing, once the application package meets the code requirements, it will be stamped approved and an approval letter will be issued.

If, during any time of the application process, an application is dormant for more than six (6) months, an inactivity letter will be sent to the agent/applicant. The letter will specify a date in which staff will need a status update or the application will be closed. Any resubmittals after this occurs will require a new application and fee.

SUBMITTAL REQUIREMENTS

Planning Staff needs a digital copy of the complete application package for review. The digital application can be submitted via flash drive, CD, or through email. If the application is submitted through email, all application materials must be contained in ONE email. The items needed for the application package are listed below. Items on the list below may be waived at the Pre-Application Meeting by staff.

1. Letter of Intent which should include:
 - a. Name of the applicant
 - b. Address or Parcel ID number
 - c. Reason for splitting the property
 - d. Description of what structures exist on the property and which, if any, will remain.
 - i. For example: House and barn to remain. The shed in the middle of the property will be moved to new parcel.
 - e. Intended use of the property
2. Completed Application
3. Pre-Application Meeting Notes

4. Warranty Deed for the property showing ownership. If the property is held by a company, trust, or any other method that is not an individual owner, documentation on managing members must be included in the application materials.
5. Notarized Letter of Owner's Authorization (Page 3 of the Application). If the property is owned by multiple individuals, **ALL** owners must complete the authorization form.
6. Original surveys of the existing property and each of the proposed new parcels.
 - a. Surveys must be signed, sealed, and prepared by a professional surveyor
 - b. The surveys must include:
 - i. Legal description
 - ii. Dimensions of the proposed parcels
 - iii. Existing structures and the setbacks of those structures to the existing and proposed lot lines.
 - iv. Existing and proposed easements
 - v. Existing and proposed accessways
 1. Direct driveway meeting the requirements as set forth in Ch. 1-17, Art. V; or
 2. Private roads shall meet the requirements as set forth in Sec. 1-53-6.14(a); or
 3. Private driveways shall meet the requirements as set forth in Sec. 1-53-6.14(b).
 - vi. Name and size of the existing right-of-way or access easement

IMPORTANT NOTICE

Pursuant to Florida Statute 197.192 the property appraiser's office will not split or combine parcels until all taxes, due or delinquent, have been paid to the Tax Collector. The Hendry County Board of County Commissioners, the Hendry County Property Appraiser and the Hendry County Tax Collector are not responsible for any delinquent taxes, penalties or interest that may result from a parcel split. It should also be noted that a parcel split by the Property Appraiser is for taxation purposes only and does not imply the legality of the land division being requested (land ownership is governed by deeds), nor the suitability for such parcel to be developed. Contact the Hendry County Planning and Zoning Department for any questions concerning property development.
