Study Area

CCWCD Boundary
- Approximately 10,883 acres (17.1 sq. miles)
- 6,160 parcels

Montura Estates
- Approximately 8,103 acres (12.8 sq. miles)
- 5,823 parcels
History

- Montura Ranch Estates was platted in 1970 by the Pan American Land Development Corporation.
- The corporation dedicated the land to the Central County Drainage District on June 22, 1970.
- Pan American Land Development Company developed the amenities but went out of business not long after.
CCWCD Responsibilities

Formerly established on May 21, 1970 as a Florida water control district authorized to levy installment and maintenance taxes as organized under Chapters 189 and 298 of the Florida Statutes.

RESPONSIBILITIES:

- to construct, operate, and maintain canals, ditches, drains, levees, and other works for drainage purposes;
- to acquire, purchase, operate, and maintain pumps, plants, and pumping systems for drainage purposes;
- to construct, operate, and maintain irrigation works, machinery, and plants;
- to construct, improve, pave, and maintain roads; and
- to construct, acquire by donation, or purchase recreational facilities and areas.
Purpose of the Land Use Study

Understand the community’s needs & vision relating to:

- LAND USES
  - Residential, Agricultural, Commercial, Industrial, Civic, Public Services & Infrastructure
- GROWTH AND DENSITY
- COMPATIBILITY
- PROTECTIONS THROUGH REGULATIONS

Generally the goal is to improve public understanding of community planning efforts, both short-term & long-term.

Establish a base level of property protections for the long-term health, safety and welfare of the community.

Survey Summary

- Residents describe the area as peaceful, rural and quiet with open space and community.

- **Favorite things:** tranquility, trees, spacious, country character, rural.

- **Concerns:** Conditions of roads, no places to work or shop, crime and overall safety, stray dogs, and people shooting guns.
  - ATV’s use is divisive, roads in poor condition, too much growth resulting in losing trees and flooding.

- **Improvements:** more paved roads, places to shop, access to services such as schools, health care and daily services; safer with better police enforcement, regulate gun usage, animal welfare, improve overall appearance of the community/problematic properties.

- **Land uses to encourage:** schools, medical, grocery/convenience, farmer’s markets, recreation, conservation,
COMMUNITY MAPPING EXERCISE

- You received a number when you arrived. That represents your table.
- At each table are three maps of Montura.
- A facilitator will guide you to locate land uses within your community.
- Each map will address a type of land use that represent a balanced and healthy community.
  1. Entrances and Intersections
  2. Neighborhood Commercial, Medical Office, Farmer's Markets & Warehousing
  3. Schools, Parks, and Conservation Lands
- The goal is for you to guide policies and recommendations that will allow Montura to develop into a desirable place to live as it grows into a more dense community.
Assessment - Need for Balance

- Montura Ranch was developed as a rural paradise, but platted to allow suburban density creating long-term health, safety and welfare issues that need to be addressed.

- It is desirable for country-living and agricultural freedoms but developed at single-family lot sizes – compatibility issues.

- Original layout maximized lot sales rather than long-term balance – makes compatibility difficult.

- The plat did not set aside enough land for non-residential uses and services creating a poor mix of land uses and an unbalanced community.
Land Use Compatibility

Compatibility includes the consideration of impacts such as noise, vibration, odor, lighting or visual impacts.

- Ask the question, “Is the health, safety and welfare of the one of the properties at risk because of the impacts from the other?”

- Typically the more intense impacts the less intense. Example: manufacturing next to houses.
