TRANSFER STATIONS PROCEDURES

Customer is weighed in at the Scale House and Attendant notifies Loader Operator of incoming vehicle.

After notification, the Operator prepares an area for dumping.

After preparation, the Operator moves the Loader from the unloading area.

Attendant instructs Customer to proceed to the bottom of the ramp at the tipping floor entrance, away from traffic.

Stop and wait for direction from Loader Operator.

After Operators direction, Customer is to back up to the entrance, stop and wait for the Operators signal to proceed.

Operator signals customer to enter unloading area and directs Customer where to unload.

Customers must stay with their vehicles. Children must remain inside vehicle at all times.

After Customer unloads and vacates the tipping floor area, the Operator clears the area and prepares for the next Customer and/or loads transfer trailers.

TRANSFER STATION SPECIAL INSTRUCTIONS

Yard waste delivered to the Transfer Station must be free of any other garbage, trash or debris.

Yard waste must be of manageable size. Full trees and oversized stumps must be cut or they will not be accepted.

4 feet in length and 4 inches in diameter is normally the guideline, but some exceptions may be made for larger items.

Yard waste, tires and white goods must be separated from normal household trash, prior to delivery to the facility. Loads that are not separated will not be accepted.

Propane tanks, used oil filters, tires on rims and other hazardous or special wastes are prohibited and will not be accepted.

Unacceptable items found after unloading, if identifiable, are to be removed by the customer before the end of the business day.

BULK ITEMS

Larger, bulky items can be taken to the Hendry County Recycling Center

Such items are:

White Goods (washers, dryers, water heaters)
Bulk metal
Tires on rims

If you are unsure, please feel free to call the Waste Management Office 863-675-5252
